Summary

Senior Full Stack Developer with 8+ years of experience in designing, developing, and maintaining scalable web applications. Proficient in **React, TypeScript, Next.js, Vue.js**, and **Node.js**, with expertise in creating responsive UIs, integrating backend services, and optimizing codebases for maintainability and performance.

Skills

Programming languages: HTML/CSS, PHP, JavaScript, TypeScript, Node.js,

Frameworks & Libraries: Laravel, JQuery, React.js, Next.js, Vue.js

CSS Frameworks: Tailwind CSS, Material UI, ShadcnUi, RadixUI, NextUI, ChakraUI, Ant

Databases: MySQL, PostgreSQL, MongoDB, Redis, SuperBase, FireBase

Development Tools: AWS, Mocha/Jest, Docker, Jenkins, Git, Babel, Agile/Scrum

Experience

Outreach software development (Austin Office), TX - Senior Full Stack Developer Jan.2021 - Apr. 2024

- Developed scalable and responsive web applications using React.js and transitioned legacy React apps to Next.JS, writing SSR functional components with Typescript and JSX syntax, increasing page speed and SEO optimization.
- Implemented pixel-perfect from Figma and XD design, using Material-UI, and Tailwind CSS, ensuring responsive design and UX while adhering to best practices using ESLint and Prettier.
- Utilized cross-platform solution with React Native, Electron, and PWA methodologies, ensuring consistent performance and user experience across mobile devices, desktops, and web browsers.
- Modeled various procedural objects into PostgreSQL schemas with Prisma module and migrated existing database while illustrating logical relations between, ensuring scalability.

Spiceworks Ziff Davis IT Inc, Austin, TX- Junior Full Stack Developer

August.2019 - Dec. 2020

- Worked with React.JS and libraries including React flux and Redux, using Material-UI and experienced reusable Component-Oriented concepts in improving performance of websites.
- Implemented REST API as a server utilizing Express middleware APIs integrated with MongoDB.
- Employed WebSocket using Socket.io to enable real-time bi-directional video streaming and chatting.
- Integrated payments with PayPal and Stripe.

Spiceworks Ziff Davis IT Inc, Austin, TX – Front-end Developer

June. 2016 - Jul. 2019

- Developed an internal system to monitor tasks using HTML/CSS, Bootstrap and multiple custom plugins.
- Created custom sections using jQuery such as sliders, carousels according to Figma designs provided by designer.
- Wrote advanced jQuery DataTables plugins and UX Optimization.
- Provided QA and testing for specific modules and functions, reporting any detected bugs or issues.
- Configured Apache Server and PHP Scripting Engine and MySQL Database Server.
- Learned company's custom library and used PHP, Python frameworks (CodeIgniter, Laravel, Django) and WordPress website designing and applied both of them pretty quickly.
- Deployed applications to test, stage and production environments using pipelines through GitHub and Heroku Cloud hosting service.

Education

Sam Houston State University, Computer science with software Engineering, Bachelor's Degree
